

Atlantis Submarines Covid-19 Protocols
Summary Revised Nov 1st 2021

- **All guests must present a Barbados Government approved negative Covid-19 test result before the departure of your submarine tour.**

Please email the negative Covid-19 test prior to your tour to:

covidsafe@atlantissubmarines.com

- **To avoid visitors having to take additional tests, we encourage them to utilize their negative pre-arrival test result within 5 days of arrival on island. For those who utilize their negative Covid exit test, such will be accepted within the 3 days prior to departure.**

- **Masks must be worn at all times and only N95 or KN95 must be worn on tour (no cloth or surgical masks). These masks are available for purchase on check-in if needed.**
- **All employees are vaccinated against Covid-19 or tested regularly**
- **Temperature checks are done daily for all employees and guests**
- **Social distancing as per the Ministry of Health (MOH) protocols (50% capacity in the submarine)**
- **Sanitization as per the MOH protocols of hands and touch points**
- **No eating or drinking in the submarine**
- **The air in the submarine is kept clean by pumping in medical grade oxygen and removing carbon dioxide. Our filters have a Merv 13 rating which typically captures 98% of droplets from breathing or speaking.**
